Ideation Phase
Empathize & Discover

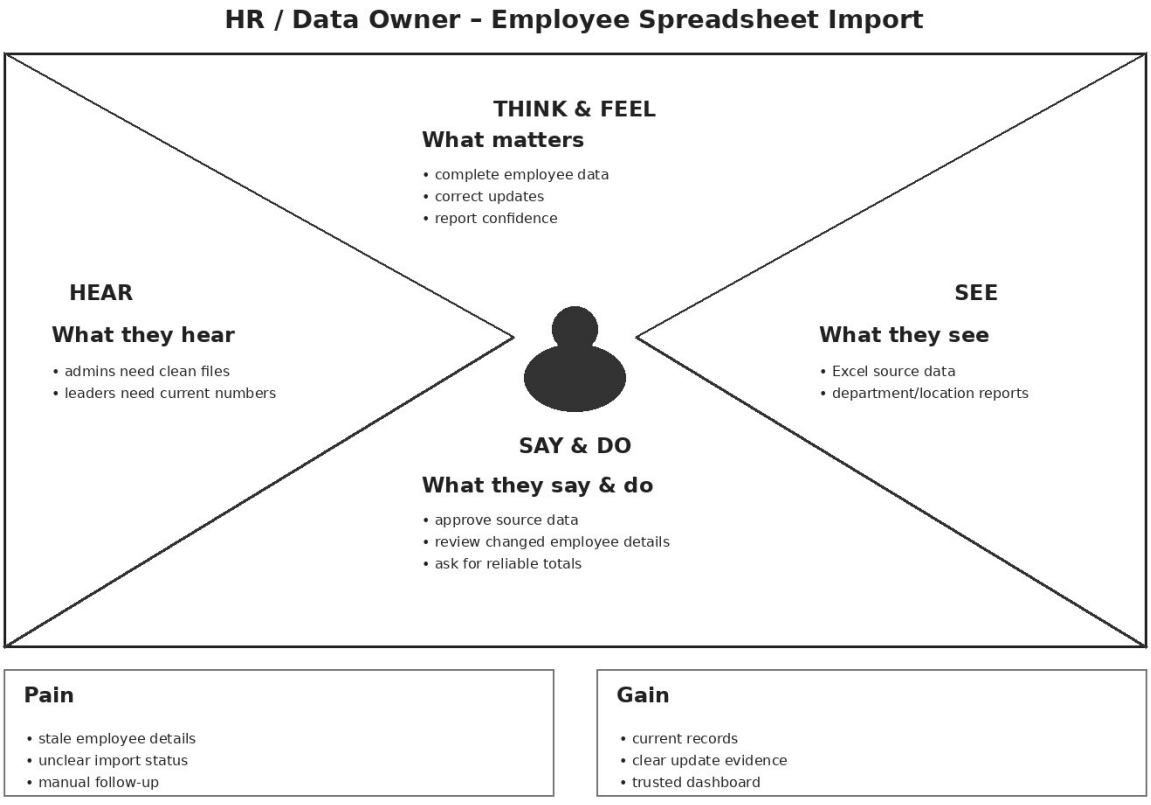

Date	30 September 2026
Team ID	SN-TRANSFORM-01
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Empathy Map Canvas:

For this project, the empathy map captures the ServiceNow administrator's experience when importing employee spreadsheet data through Import Sets and Transform Maps.

It keeps the administrator's goals, concerns and evidence needs visible while the workflow moves from spreadsheet preparation to target-table validation.
The map focuses on preventing duplicate employee records, confirming source-to-target mappings, explaining transform outcomes and producing trusted reports for HR and managers.
