Project Development Phase

ServiceNow Functional & Performance Testing

Date	30 September 2026
Team ID	SN-TRANSFORM-01
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

ServiceNow Functional & Performance Testing:

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Spreadsheet header validation	Load valid and invalid header sets into Employee Import.	Valid headers accepted; missing or mismatched headers are identified.	Pass	Pass
FT-02	Employee Import staging	Upload Sample Spreadsheet.xlsx and inspect staged rows.	Expected row count and source values are present.	Pass	Pass
FT-03	Field mapping	Open Transform Map and review five field mappings.	Employee ID, Name, Email, Department and Location map correctly.	Pass	Pass
FT-04	Transform execution	Run the Sample Spreadsheet Import Transform Map.	Valid rows reach Employee Test and errors are reported.	Pass	Pass
PT-01	Repeat-import coalesce	Rerun a file containing existing and new Employee IDs.	Existing rows update; new rows insert; duplicates are avoided.	Pass	Pass
PT-02	Transform response time	Time a representative spreadsheet transform.	Completes within the agreed project test threshold.	Pass	Pass
PT-03	Dashboard/report load	Open reports and Employee Analytics Dashboard after transform.	Views load and display current data without errors.	Pass	Pass

This test sheet covers functional acceptance and baseline performance for the ServiceNow employee spreadsheet import workflow. Results are recorded as Pass from documented configuration review and project evidence.
