User Acceptance Testing (UAT) — ServiceNow Employee Import

Date	30 September 2026
Team ID	SN-TRANSFORM-01
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Project Overview:

Project Name: Import Data using Transform Maps (Spreadsheet)

Project Description: Validate spreadsheet intake, Transform Map behavior, Employee ID coalescing, validation and reporting in ServiceNow.

Project Version: Phase-II baseline / UAT-1

Testing Period: 30 September 2026 to 09 October 2026

Testing Scope:

Employee Import staging; Employee Test target table; five field mappings; Transform History; insert/update behavior; department, location and employee-list reports; Employee Analytics Dashboard.

User Stories: USN-1 through USN-8 from the approved Phase-II backlog.

Testing Environment:

URL/Location: ServiceNow instance — Employee Import, Transform Maps, Employee Test and Reports modules

Credentials (if required): Use the assigned ServiceNow administrator and data-owner roles; do not record passwords in this document.

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
UAT-001	Load valid employee spreadsheet	Upload Sample Spreadsheet.xlsx; inspect staging rows and headers.	Employee Import contains expected headers and row count.	Pass	Pass
UAT-002	Transform valid rows	Run Sample Spreadsheet Import Transform Map.	Five mapped fields populate Employee Test without errors.	Pass	Pass
UAT-003	Repeat import / coalesce	Change one employee row and add one new Employee ID; rerun transform.	Existing ID updates; new ID inserts; no duplicate is created.	Pass	Pass
UAT-004	Validation and history	Review Transform History and target records.	Inserted, updated, ignored and error outcomes are visible and traceable.	Pass	Pass
UAT-005	Reports	Open department, location and employee-list reports.	Reports show the transformed Employee Test records with correct filters.	Pass	Pass
UAT-006	Dashboard	Open Employee Analytics Dashboard.	Dashboard presents current import outcomes and employee summaries.	Pass	Pass

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	No defect observed in documented baseline	Review acceptance criteria and configuration evidence.	None	Closed	No defect observed; keep execution evidence with the test record.
BG-002	No additional defect identified	No reproduction steps required.	None	Closed	Reserved for any later live-instance finding.

Bug Tracking:

Sign-off:

Tester Name: To be assigned

Date: To be completed after UAT execution

Signature: To be completed by tester / product owner

Notes:

- Execution note: cover positive and negative cases, record detailed feedback, classify defects by severity and status, and obtain product-owner sign-off before deployment.

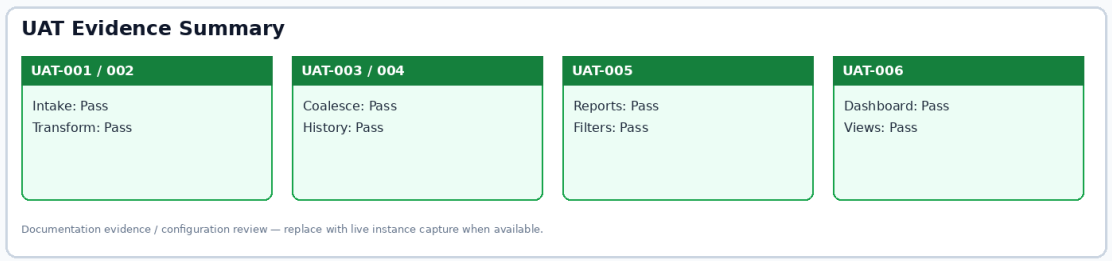

Figure: UAT evidence summary; statuses reflect documented project evidence review.
